# Matteo Pettenò

#### **PROFILE**

I am an engineer with a strong foundation in information theory, earned during my Bachelor's degree at the University of Padova, and a deep passion for audio that led me to pursue a Master's degree in Music and Acoustic Engineering at Politecnico di Milano. My academic journey has equipped me with a solid understanding of deep learning, machine learning, control systems, signal processing, and electronics. Alongside my studies, I have continuously advanced my professional development, working in the IT sector as a full-stack developer, software architect, and DevOps engineer. I am now seeking a role in the deep learning field, ideally in research or engineering, with a focus on generative AI.

### **SKILLS**

- Python, C++, MATLAB, GLSL, JAVA, SQL, JS, CSS
- Keras, Tensorflow, PyTorch
- NumPy, SciPy, scikit-learn
- Apache Beam, Apache Airflow, Apache Spark
- GCP, AWS, CI/CD, Docker, LXC, Proxmox
- Tone.js, Three.js, Svelte, Vue.js, Firebase, Flask, Spring, PWA, Workbox, Hugo
- · JUCE, Supercollider
- librosa, FMP Notebooks
- Logic Pro, Ableton Live, Reaper, Ardour
- COMSOL, REW
- gdb, OWASP ZAP, ghidra
- Figma

## **EDUCATION**

## Master's Degree in Music and Acoustic Engineering

DEIB, Politecnico di Milano (PoliMi) - Graduated Cum Laude

2021 - 2024 Milan, Italy

 <u>Relevant Courses</u>: Machine Learning, Computer Music, Sound Analysis Synthesis and Processing, Creative Programming and Computing, Musical Acoustics, Electronics and Electroacoustics, Computer Security

 <u>Thesis</u>: Latent Space Regularization via Normalizing Attribute Transformations for Symbolic Music Generation

## **Bachelor's Degree in Information Engineering**

2019 - 2021

DEI, University of Padua (UNIPD)

Padua, Italy

- <u>Relevant Courses</u>: Algorithms for Engineering, Systems and Models, Control systems, Electronics, Telecommunications
- Thesis: Evaluation of the performance of commercial STT and NER services applied to digitized oral sources

#### **PUBLICATIONS**

**M. Pettenò**, A. I. Mezza and A. Bernardini, Latent Space Regularization..., *Forthcoming*, 2025

#### **WORK EXPERIENCE**

#### Senior Consultant - Full Stack Developer

2021 - 2023 Milan, Italy

ccelera s.r.l (Arsenalia Group) - Via Lepetit, 8, 20124

Platforms: SAP Hybris Commerce

- Platfornis: SAP Hybris Collinero
- <u>Customers</u>: Bonfiglioli, Cellularline, PegPerego, Metal Work

### **DevOps/System Administrator**

2020 - 2021

Walit s.r.l - Via Dandolo, 25/B, 31100

Treviso, Italy

Platforms: Google Cloud Platform (GCP), Gitlab, Flask, OWASP ZAP

### Senior Consultant - Junior Software Architect

2019

Alpenite Ltd - 38 Craven Street, WC2N 5NG

London, UK

- · Platforms: Mulesoft, RabbitMQ, FTP
- · Customers: Stella McCartney

#### Junior Consultant - Full Stack Developer

2017 - 2018

Alpenite s.r.l (Arsenalia Group) - Via delle Industrie, 27/7, 30175

Venice, Italy

- Platforms: SAP Hybris Commerce
- · Customers: Kering Eyewear

#### RESEARCH PROJECTS

# Latent Space Regularization via Normalizing Attribute Transformations for Symbolic Music Generation 2024

Thesis in Music and Acoustic Engineering MS

github

Kennerale and the Control of the tenneral all all accounts and the

Keywords: symbolic music, attribute-controlled generation, data gaussianization

## Do Unconditional Deep Generative Models Spontaneously Learn How to Encode Human-Interpretable Musical Attributes? 2023

Music and Acoustics Engineering Capstone course in MS.

github

Keywords: variational autoencoders, latent space topological structure

# Evaluation of the performance of commercial STT and NER services applied to digitized oral sources

github

Thesis in Information Engineering BS

Keywords: speech-to-text, named-entity-recognition, gcp, aws

## **RESEARCH INTERESTS**

- Deep Learning
- Representation Learning
- Music Information Retrieval
- Audio Generation
- Al-Assisted Music Composition
- Music Understanding

## **LANGUAGES**

Italian: Mother tongue English: Fluent (C1) French: Base (A1)

## **MUSICAL BACKGROUND**

As a self-taught multi instrumentalist, I have a well-rounded skill set across guitar, piano, and drums, while not being a virtuoso in any of them. My passion for synthesizers has always been a major influence, and listening across genres has enriched my understanding of music. I have experience playing in bands, which has further developed my collaborative skills. Additionally, I have a solid background in music theory, which I have developed independently over the years through my playing and further strengthened through courses in my master's degree.

## **CREATIVE PROJECTS**

Ego	2023
Creative Programming & Computing course in MS	github
Keywords: three.js, glsl, svelte, mediapipe, max4live, tone.js	
Pulseq - Fractal Sequencer	2022
Advanced Coding Tools and Methodologies course in MS	github
Keywords: fractal sequencer, web app, svelte, tone.js, glsl	

# **COMPUTER MUSIC PROJECTS**

2022
github
2022
github
2022
github
2021
github
2021
report

SOUND ANALYSIS SYNTHESIS AND PROCESSING PROJECTS	
Wave Digital Filter Modeling Sound Synthesis and Spatial Processing course in MS Keywords: wdf, matlab, virtual analog	2022 report
Leslie Speaker Emulation Sound Synthesis and Spatial Processing course in MS Keywords: leslie speaker, matlab, digital audio effect	2022 report
Acoustic Source Localization with Microphone Array Digital Audio Analysis and Processing course in MS Keywords: sound localization, doa estimation, matlab, microphone arrays	2022 report
RIR Estimation with Wiener Filters  Digital Audio Analysis and Processing course in MS  Keywords: room impulse response, wiener filter, matlab, convolution	2022 report

## MUSICAL ACOUSTICS PROJECTS

Design of a Piano	2023
Musical Acoustics: Characterization of Musical Instruments course in MS Keywords: applied acoustics, comsol, matlab, piano modeling	report
Helmholtz Resonator and System Impedance	2022
Musical Acoustics: Modeling of Musical Instruments course in MS Keywords: applied acoustics, helmholtz resonator, matlab	report
